Privacy Policy – Relate App

Last updated: May 2, 2025

This Privacy Policy outlines how the Relate App ("we", "our", or "us") handles user data. This policy applies specifically to internal testing versions of the application.

---

1. Information We Collect

The app may request access to your device's **Camera**. This is used for core features such as scanning QR codes or capturing payment information. No images or video are stored or transmitted unless explicitly required by the app's functionality and approved by the user.

---

2. How We Use the Information

We use camera access only to support app functionality, such as QR code scanning during payment processes. The app does not share, sell, or transmit any personal or sensitive data to third parties.

---

3. Data Security

We take reasonable precautions to protect any data processed during app use. No camera data is permanently stored unless clearly required and disclosed to the user during use. All communication is encrypted when applicable.

---

4. User Consent

By using the Relate App during internal testing, you consent to the use of your device's camera for the described purposes. You may revoke this permission anytime via your device settings.

---

5. Contact Us
